

# AquaBella® Application Instructions

## OVERVIEW

AQUABELLA® IS NOT A CHEMICAL PRODUCT BUT A COMPLEX MIXTURE OF NATURALLY OCCURRING MICROBES. AQUABELLA® IS COMPLETELY NATURAL, WITHOUT ANY CHEMICALS.

**PLEASE READ ALL INSTRUCTIONS BEFORE STARTING**

### A. APPLICATION INSTRUCTIONS

1. AquaBella® can be added directly to the water being treated. Please refer to the table below for required volumes.
2. Chlorine kills the microbes in AquaBella®. Tap water should be dechlorinated before AquaBella® is added.
3. Depending upon the type and volume of water being treated, a monthly application of AquaBella® may be required. Please [contact us](#) to let us know about your water treatment needs.

### B. AMOUNTS

#### Ratio

One ounce of AquaBella® treats 3,800 gallons of water.

#### Sample Volumes

Water Volume *	AquaBella®
120,000 gallons	1 quart container
1.5 million gallons	12 quarts
25 million gallons	55-gallon container

\* One Fluid Ounce = 0.03 liters

### **C. HANDLING AND STORAGE**

1. Store at room temperature, avoid direct sunlight or contact with skin or eyes. Keep out of reach of children. Avoid taking internally.
2. Do not transfer and store AquaBella® in a metallic container, as contact with metal can diminish the strength of the microbes.
3. AquaBella® solution can be stored for up to 18 months from the packaging date with no loss in strength.
